SPEIRS MAJOR

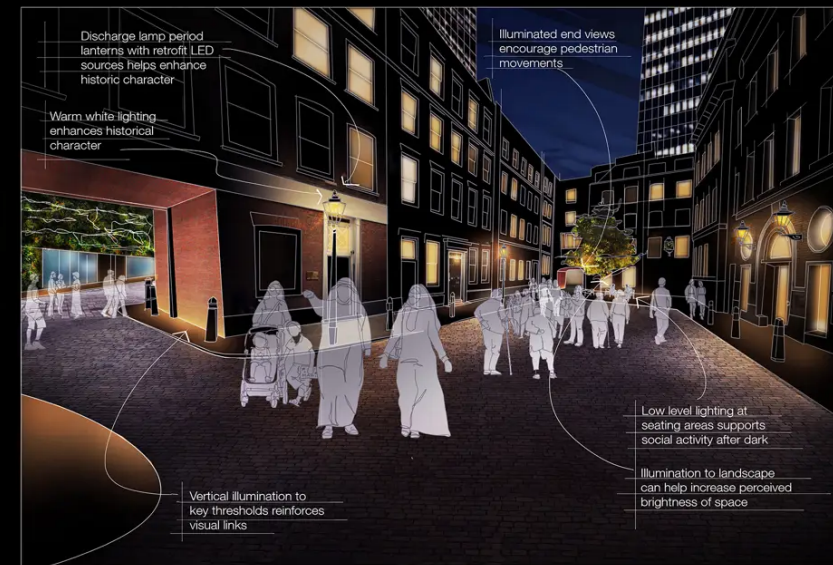

Wide-ranging and holistic, the existing approach to the street, amenity, architectural and landscape lighting has been completely re-thought, giving priority to pedestrian movement and the human experience of the public realm after dark.

CLIENT
The City of London
Corporation

PROJECT TEAM

SPEIRS MAJOR

The study also provides suggested treatments for a wide range of landmarks including St. Paul's Cathedral, the Guildhall, Smithfield Market and several historic bridges.

As well as for a wide range of character areas including the Culture Mile, Bank and the Riverside.

Importantly, the study also provides an approach that balances concerns for creating a safe, secure and legible environment, supporting the night-time economy and creating a focus for the City's residential community, while limiting potential environmental impacts such as energy use, light pollution and light spill.
